Dear Co-chairs Ted Kennedy, James Albis, and Honorable Members of the Environment Committee

Nearly every day, animal abuse news is reported by newspapers, radio, television and Internet resources. For example, invoke a Google Search with key words; animal abuse news. At this writing, Google Search found 61,500,000 results! The stated bills above mention just three.

For some reason, our culture has brought about these barbaric animal cruelty events. It seems the only means of changing culture is by education, laws with severe punishment and/or some sort of demanding and productive community service.

Please use your knowledge and position to help stop animal abuse.

Sincerely,

Ron DeGray
