

I am a volunteer for the Connecticut Forest and Park Association (CFPA), a past chapter chair of the Connecticut Chapter of the Appalachian Mountain Club (AMC) and a town representative on the New England Trail Stewardship Committee, where I represent Guilford. I am speaking individually. I lead hikes for both CFPA and AMC and, therefore, I support any legislation designed to increase access to conserved land available for outdoor recreation. I support the passage of this bill for the reasons outlined in the testimony of Eric Hammerling, executive director of CFPA.
