**Representative James Albis**  
**Chair, CT House Environmental Committee**

Dear Representative Albis,

I am a third grader at Saugatuck Elementary School (SES).

I support the bill to ban plastic bag usage in Connecticut because

Plastic bags could take up a lot of land. They can actually turn Connecticut into a wasteland & will keep spreading all over the USA. We need to take care of our Earth & one way to help out is replacing Plastic bags with Paper bags because paper decomposes into soil & that is good for the Earth because it blends in with our Earth material & it can grow more plants for the Earth.

Truly yours,  
Curtis

PS. Attached please find a project I completed on the climate change.
