

Good Afternoon!

I am writing in regard to SB1061, Sec. 6.

This is totally appalling!!!

Blind people in this state need jobs! Really!!! They do!!!

How come? Blind people need jobs to take care of themselves physically, mentally and emotionally.

They need a place in this world and an identity! Something that says, "I'm here to help you."

Who ever thought this bill would be enforced?

Why?

There are ways around obstacles. I know, I'm totally blind myself and was recently laid off from a job I held for 25 years.

Please, do not enforce a bill to keep blind people out of work!!!

Thank You

Pamela B. Garde, Newington, CT
