

TESTIMONY OF
STEPHEN GIBELLI, ASSISTANT GENERAL COUNSEL

Energy and Technology Committee
March 17, 2015

RE: Proposed H.B. No. 6982, AN ACT CONCERNING ENERGY SOURCES

Eversource Energy thanks the committee for the opportunity to provide testimony on the H.B. No. 6982. Eversource is committed to finding ways to support Connecticut's energy goal of providing cheaper, cleaner and more reliable energy resources to the citizens of our state.

This proposed bill would require the chairperson of the Public Utilities Regulatory Authority (the "Authority") to conduct a study regarding "energy sources", and to report the results of that study to the Energy and Technology Committee no later than July 1, 2016.

Eversource supports efforts by the Authority to study energy sources, but it needs additional information about this Bill's scope and purpose in order to better understand what subject matter this proposed study seeks to examine and what objectives it seeks to accomplish. Therefore any legislation drafted should provide this additional clarification.

Eversource also believes that the proposed study should be conducted as part of a transparent adjudicatory process that allows comment and sworn testimony from the various interested stakeholders.

Eversource looks forward to working with the Authority and other stakeholders in the evaluation of this topic.

Thank you.
