

**Testimony  
Elizabeth Gara  
Connecticut Water Works Association  
Before the Energy Committee  
March 17, 2015**

The Connecticut Water Works Association (CWWA) is a trade association of municipal, private and regional water utilities. As water utilities, we have a keen interest in issues relating to public water supplies and water resources.

**CWWA supports the intent of HB-6993, An Act Concerning Water Systems**, to study various issues relating to water systems in Connecticut. We actively participate in numerous studies affecting the operation of water systems and the provision of public water supplies.

As such, we respectfully request that our organization be kept apprised of any issues relative to water systems that this legislation seeks to address and have an opportunity to provide input as the language of HB-6993 evolves during the legislative process.

Thank you for the opportunity to comment.
