Dear Committee Chairs Senator Doyle, Representative Reed, and Members of the Committee;

I am writing to urge you to support Raised Bill SB 928. This is exactly what we need for our state as we wean ourselves off highly destructive nuclear and fossil fuels. Our future depends on this type of wise approach to energy production. A shared renewable energy program is an outstanding for forward-thinking way to convert from the current model.

Thank you for your attention to this important Bill. I hope you will give it your utmost support.

Best wishes,

Noreen P. Cullen
