**Subject:** Jonathan A. Harris/ testimony

Greetings

My name is Marc Wilson and I support Jonathan A. Harris to be nominated as the Commissioner of Consumer Protection. I was a constituent of his when he served as state senator for the 5th district in Burlington CT and even though I was not a resident of his when he was mayor of West Hartford my parents who live there now were on the town council prior to him being mayor and thought he was very smart and had a natural ability to be a spokesperson of some sort and when they saw that he was on the Executive and Legislative nominations public hearing agenda they wanted to ensure that he was nominated because of all that he has done for the town of West Hartford. I have also met him when he served his first term as state senator and we discussed political issues and disputes I had with his stance on certain bills and he was very insightful and I figured that an ambitious individual such as him should run for governor or congress. In conclusion I think the state of Connecticut would truly be in good hands with Jonathan A. Harris as the Commissioner of Consumer Protection.

Thanks
