Subject: Please support HB 6840 and bike and pedestrian funding

To the Finance, Revenue & Bonding Committee:

I am writing to urge your support for HB 6840, and for bike/pedestrian funding in general. As a long-time bicycle commuter, I know that the bicycle can be a viable means of transportation, but facilities for bicycles need to be improved and expanded. The state of our streets and roads is not safe for cyclists and pedestrians. Multi-use trails have a tremendous value from a recreational and health standpoint and also require continued support from the State. Being a bike-friendly and walkable state bring economic benefits from bicycle tourism and from attracting talented young workers

Thank you for your support.

Sincerely,

Alan Blasenstein and Sara J. Frey
