RE: Bike Ped Funding HB 6840

Dear Committee Members:

I urge you to support the Governor's transportation funding proposal, HE6840 which includes funding for Bike Pedestrian funding for 2016 through 2020. Our aging transportation system needs to be improved and maintained. Our state residents need increase opportunities to safely explore and enjoy the outdoors, and providing them access public lands or rights of way that can be used for walking, running and cycling are a great way to help this happen. Our desire and need to have access to these resources will only increase in the future, so now is the time for all of us to embrace these efforts.

On behalf of my family, friends and fellow outdoor enthusiasts, thank you for supporting HB6840!
