

Good Afternoon Elected Officials,

Please reconsider passing a bill to allow Keno gambling in Connecticut. Personally I'd like to see all forms go away, but I understand that for some it's fun and for the state it's revenue.

A trip to Mohegan Sun for a concert and walking past the "pit" of slot machines was just depressing. Older folks just plugging away at machines where the odds are always stacked against them, and the area music drones on repetitively.

Lessening opportunities for gambling should be the interest of the state, not increasing them.

Sincerely,

Diana LeRoi-Schmidt
