

State of CT –

Please vote “No” on House Bill 7054. I have witnessed forms of Keno in other states and I’m adamantly against adding this form of gambling or lottery system to our restaurants or bars. Living on the NY State border we have local restaurants and bars that play Quick Draw. The State of CT sees Keno or lottery money as positive revenue for CT. I see our children exposed to gambling at too early an age and the state praying on people who for the most part shouldn’t be wasting their hard earned money on gambling in the first place. Making this form of gambling more accessible and in the face of children at restaurants/bars would be a terrible thing for the future of kids. I would strongly suggest you find better ways to raise income for the state or look to cut spending instead of adding Keno to the state of CT.

Sincerely,
James Ritman
