

To Whom it May Concern,

Re: House Bill 7054

I urge you to reconsider passing this bill which preys upon an already burdened segment of our society and many of whom are not working full-time.

It is time to realize the facts. Those of us working and thriving in Fairfield County are paying upwards of 85% of tax revenue for the entire state and encouraging gambling is just another bad business decision , not to mention the social ramifications.

Please NO MORE gambling in Connecticut and NO MORE taxes. We are overwhelmed with paying taxes.

Regards,
Julia
