

I am not in favor of raising revenue through Keno. Government needs to protect citizens rather than exploit them.

I expect my government to dig deeply, stop state employee overtime, create a fair tax system, equal the playing field between public and private employees and most of all stop funding outrageous projects such as the New Britain busway!

I believe my government can do better than Keno to raise revenue.
I urge you to make tough decisions.
Keno is too easy.
