

Dear House Bill 7054 Committee

As a life long resident of CT, I am apposed to allowing KENO in our state. I understand the budget issues we are currently facing, but allowing KENO, which typically preys on those least able to afford this type of gambling is wrong.

We have casino's Lotto, scratch tickets, etc for those who want to play/gamble. The great state of Connecticut does not need another negative drain and distraction for our citizens.

Respectfully,

Peter Fotier
