Re: **Please support HB 7054, An Act Concerning Keno**

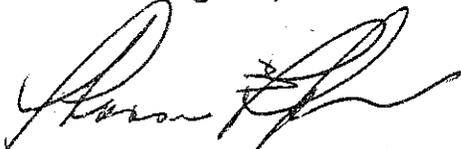

Date: April 13, 2015

To whom it may concern:

Please support HB 7054, An Act Concerning Keno. This bill will help my business in an economic standpoint as well as maintaining a competitive edge with similar establishments both within and outside the state of Connecticut. Keno will help small businesses, such as mine, to not only attract NEW customers from the adjoining states but also help to ensure that they continue to return again & again resulting in a steady customer base and consistent cash flow. In turn, I would be able to build off that steady revenue stream by planning for future improvements to my business and expansions to my labor force. I am always in need for that unique product or niche that would set my business apart from the competition. Keno would be an excellent addition to my business without having to incur a large upfront investment from my business and it is an affordable, alternative form of entertainment for my clientele.

I hope you consider my views contained in this letter as a Small Business Owner concerning Keno and its positive impact it can have on the great state of Connecticut both economically & competitively.

Kindest Regards,

Shannon Flynn (Owner/Operator)
