

Please preserve the funds of the Community Investment Act fund.

The Governor's campaign pledge was to make \$7.5 million in grants per year for open space preservation, using Community Investment Act Funds

We cannot be short-sighted with our most valuable resources- they are priceless.

One of the reasons I live in CT is that it is a state that has a wonderful mix of open space, shoreline, urban and suburban spaces, farmland, and just plain American charm.

Please continue to assure that Connecticut remains one of the more beautiful and diverse states in the USA.

Thank you,

Lynne Butcher
