

Please do not divert the funds from the Community Investment Act to the General Fund. The value of the preservation of the bridges and beauty of the Merritt Parkway is an irreplaceable heritage for Connecticut and the nation. It would be tragic if funds were removed from the maintenance of this historic road -and the safety of the traveling public is to be considered as well. The crumbling cement could be a safety hazard for the hundreds of cars that use this roadway daily. Please retain the funds of the Community Investment Act. Gratefully, Mary T. Keane, founder of the Trumbull Nature & Art Center, etc.
