Town: Suffield

Testimony:

Do we really need more stadiums in this state? I don't think so we already built a stadium for the U-conn football team? It had all kinds of promises for jobs. Lets look at those jobs. beer servers, people to clean up the stadium ect... all part time big deal. Millions \$\$ spent on part time jobs???

The U-Conn stadium was built right in the middle of the 2nd longest runaway in the state, a valuable asset. The state could of had all the Air freight companies move from Bradly field to Ressler field and provided real jobs all year round.

I'm not in favor of Taxpayer monies being spent on useless stadium projects Ressler, Dodd stadium ECT...
