

I, along with everyone I know, oppose the use of tax dollars for the baseball stadium. This bill needs to be rejected.

We are in a time of budget crisis. This is not a need. It is a want. there is a perfectly good stadium in New Britain that will be empty. The entire move is a waste of time.

How much more burden will you place on the hard working citizens of this state before there are none left?

Everyone I know is at least considering a move out of this state due to continued poor leadership, myself included. If I could sell my house, I'd be gone. But I can't sell my house because everyone looking to buy isn't buying here.

Please start thinking about the tax payer before we are all gone. And then who is going to fund your mistakes?
