

From: Christine Garcia

Town: Coventry

Testimony:

I strongly oppose the building of this stadium, which will be home to the Hartford Yard Goats?

Really? This is such a well known, revenue producing team that they need their own stadium?

Absolute nonsense. Quit spending the taxpayers money on crony/pet projects. This state has a huge spending problem and if it isn't curtailed we are destined to become the next Detroit. You are driving working people out of the state in droves. Stop spending money we don't have.
