

Dear Sirs,

I am contacting you concerning Bill 1132 and the funding of Hartford's New baseball stadium. I do not support the use of any state tax dollars to fund this project. As you know Ct is financially unsound for the foreseeable future and should avoid getting involved in another losing proposition. This project was sold as no cost to taxpayers and if Hartford can't pay for it then leave the team where it is. On a personal note while I have supported the team in the past I will not go to Hartford to see a game as it is not safe to do so. Thank you for your consideration of my concerns.

Daniel Bergin
