

I am writing to oppose the use of my tax dollars towards the minor league baseball stadium in Hartford.

Secondly, I opposed it from the beginning because it is planned for an awful location – the junction of 91 and 84 and the other city exits. The traffic build-up from south of Hartford to at least the Jennings Road exit is absolutely mind-boggling.

I have taken day campers to the New Britain stadium in the past and compared to the traffic situation I would think twice about getting into that mess. As a family, I would not want to deal with the late afternoon traffic to get to an evening game.

But most of all – NO TAX DOLLARS!

Kay Woodford
