

From: Ron Brown
Town: Ellington

Testimony:

Here we go again. This is too often a recurring theme here in Connecticut. First we're told there will be no tax increase; then Malloy imposes a tax increase. Now we're told the new baseball stadium will not be funded by tax payer dollars; and now it's in a proposed bill. We have to do something to stop these actions which continue to drain residents financially. Especially, people like myself who is retired and on a fixed income.
