

Promises that had been previously made that no Connecticut tax dollars will be used to pay for the new City of Hartford Yard Goats baseball team. I urge that the Connecticut Sate Legislature vote to not support any bill that would use Connecticut tax dollars for the Hartford Yard Goats baseball team.

The only individuals that would benefit from this business venture will be the promoters of this baseball team. The city of Hartford has one of the highest tax rates in the State despite receiving monies from the Legislature for State Government facilities within the City.

You may note that we already have a baseball team only 10 miles away in the City of New Britain which has been financially successful in carrying out their team for many years.

It may be noted that the new bus route between Hartford and New Britain will insure many more financial years will be realized with the New Britain baseball team.

I urge that our senator of the 8th District, John Kissel, to use his abilities to inform his colleague to not support this bill but also to vote against it.

Very truly yours,

Stanley Walczewski  
Granby
