

Vote NO on bill 1132.

Please do not use any tax dollars to pay for this stadium! It's not your money, I work hard for it and I'm willing to support roads, schools, government business and the military. But please do not spend any tax money on a sports stadium. It would be for a very limited amount of people that will actually get a benefit out of having it, however, everyone paying taxes will have to pay for it. That's not fair, I'll never go to one of those games but you want my tax money to pay for it. Let the private sector to pay for it if it's such a good idea.
