Subject: Request to Testify to the GAE Regarding HB-6950

Dear Clerk,

I have recently been made aware of a proposed change to Section 9-320f of the general statutes that would lift the requirement that an election audit be conducted manually and thereby open the door to high-speed independent election audits.

My company, the Clear Ballot Group (www.ClearBallot.com) has developed the nation's first automated, independent audit system capable of tabulating any ballot design in use in the United States. That includes ballots designed to be counted on Connecticut's Accuvote voting machines.

With this email, I, or a member of my staff, seek to provide testimony to the GAE committee in order to acquaint its members with our independent audit system. Specifically, I would like to describe our technology and to briefly demonstrate how it was successfully used in Vermont where a statewide audit was conducted in December, 2014 under the direction of Secretary of State, Jim Condos.

I look forward to hearing from you.

Regards,

Larry Moore
