Dear Senator Hwang--

Traffic on Bronson Road, Southport, CT. along with Mill Hill Road.

As everyone knows Bronson Road has a northbound entrance to I-95 and a southbound exit onto Bronson Road. A residential complex such as ours at Southport Woods East Condominium does not deserve more traffic. The line of traffic coming and going from I-95 is constant all day long to late in the night. This includes many 18 Wheelers, Cement Mixing Trucks, all size delivery trucks, a full line of cars and trucks when I-95 gets backed up especially Southbound. All this traffic causes a huge amount of dirt and dust to consume our complex which is unhealthy to start with. No need for more. Traffic on these roads causes a dangerous situation for pedestrians and school children.

Of course I must include great constant traffic on Mill Hill Road along with Bronson Road created by commuters and a super large residential community.

The housing project may be necessary, but not on Bronson Road.

Sincerely,

William A. Plummer
16 Mill Hill Road
Southport, CT 06890
