

Dear Senators and Representatives:

My name is Roger DeZinno. I am a pharmacist and the owner of Graeber's Pharmacy. I would like to have your support of Raised Bill 1052 - AAC Maximum Allowable Cost Lists and Disclosure by Prescription Benefit Managers

At one time, it was very unusual for a pharmacy to get paid less than cost for filling a prescription. Curiously, the generic industry, which provides the low cost competitive pharmaceuticals, has been in a state of consolidation and product discontinuations. Prices in many cases shoot through the roof overnight. Right now, there are over 1,000 products that pharmacies have petitioned the payers to adjust prices to reflect reality – a far cry from just a few years ago.

You are cordially invited to visit Graeber's Pharmacy and see this challenge firsthand.

I thank you for your time and consideration on this important matter.

Sincerely,
Roger DeZinno
