Subject: Committee Bill 5505

I oppose this bill on many levels. It has nothing to do with children's best interests. Nowhere in the Bill is there anything about WHAT is best; just what a parent is ENTITLED to. Children do not belong to parents and they are not property to be shared or divided in any way. Supervised parenting is very rare and needs to be decided by the judge who hears all the facts. Every case deserves individual attention because every child deserves our very best efforts.
