Subject: HB 6187

My name is Micah Rapini. I live in New Haven, CT, and have for most of my life. I am active in my community, volunteer, and served my country after September 11, 2001.

I am very much in support of HB 6187 An Act Concerning Court Proceedings and The Protection of Animals. In this state especially, people who kill animals get no serious punishment. Statistically, they will move on to hurt humans, if they haven't already. Taking a life should not result in a slap on the wrist. Someone needs to speak up for the animals who are stabbed to death, starved to death, strangled to death, set afire. It's happening too often.

I support HB 6187

Thank you for considering this bill.

Regards.

Micah Rapini
