To who it may concern...

All of your anti gun bills are completely unconstitutional and unfounded.... You can not write a law the reaches into my home and you can not tell when where how or who I carry near... I am absolutely sick and tired of all of you going after LAW ABIDING CITIZENS... We have all taken safety classes and we all Know how to handle our side arms.. You will not tell us how to store them and who to carry near...

It is UNCONSTITUTIONAL AND A SEVERE OVER STEP IN MY PRIVATE LIFE...

As far as restraining orders and gun confiscation? There's already a very sketchy law pertaining to that...

You offer no due course of action if someone is accused of violence. What happened to due process?

Your pathetic attempt at our "protection" only prohibits us from protecting ourselves which is obviously your attempt. Good luck And why aren't these meetings advertised via media? No one knows about these meetings. How is that fair? You're sneaky and underhanded...

Thank you
