Subject: Senate Bill 668

Our country is a downhill slide. No one can figure out why. Let me tell you, it's because we have taken every measure to make sure that values and religion are removed from this great country that was founded on values and religion. So here we are once again on the forefront of a moral decision. Do we have the right to take someone's life, or allow them to take it. My vote is No, we do not! Only God (whichever God you believe in) has the right to make that choice. Life is a gift, every LIFE!!!
