**HOUSE BILL 7015 AN ACT CONCERNING AID IN DYING FOR TERMINALLY ILL PATIENTS**

**Please support this important bill. To interfere with the decisions of a human being who is terminally ill is not legitimate government action. We must be free to make decisions concerning our own end of life. The amount of money, pain and resources invested in trying to keep people alive who do not want to live is simply ridiculous.**

**I also see this as a major environmental issue. The use of energy resources involved in keeping people alive when they are terminally ill and want to die does not make sense.**

**I feel very strongly about this issue and feel that most of the people in our state agree once they understand that it applies to terminally ill and mentally healthy people ONLY.**
