**Subject:** Death With Dignity

Death With Dignity should be an option for every patient and their doctor. We must ask the question, "Are we prolonging life? Or prolonging death?" As a senior citizen with a "treatable but incurable" illness, I pray, when my time comes, my doctor will be able to provide me with a peaceful ending to what has been a well-lived life. I also pray that this option will be made available to not only the citizens of Connecticut, but to all Americans.
