Subject: HB 7015

Dear members of the Judiciary Committee,

I am writing to inform you of my sincere and determined opposition to HB 7015, an act that would allow for assisted suicide in Connecticut. I believe that this bill, if passed, will severely and irreversibly cause damage to the moral foundation of our state. All human life is precious and sacred; we cannot begin it, and we must leave its end in the hand of the Creator. To pass this legislation would only serve to cheapen our humanity further. We must respect life for all people and at all stages or we will be the cause for the rapid deterioration of our society. Do not be fooled by the lofty rhetoric of those in support of this bill; there is more contained in this act than meets the eye and will surely be taken further than is currently being proposed. Ignore the political pressures for once, and do what is right before God!

Sincerely,

Joel Hryniewicz
