Subject: death with dignity

I am unable to be present at the public hearing on Wednesday, March 18, 2015. I am sorry to be absent. The right to choose is very, very important to me. At 81 I know what is coming, and I want to have a say in the way it plays out. My children know my wishes. I have done my best to inform my doctors. I still fear what might happen at a hospital or a care place. Please, give us the right to choose and protect our families from harm when they carry out our wishes.

Sincerely, Elizabeth Kincaid-Ehlers
