Subject: Right to Die WITH DIGNITY

PASS THE RIGHT TO DIE LEGISLATION

Compassion: Are you kidding? We put our pets "to sleep" to alleviate their pain and suffering yet we warehouse people in nursing homes, drug them daily, sit them in a wheelchair in the hallway, watch them drool, change their "pull ups" , watch them cry... IS THIS DEATH WITH DIGNITY. All this does is feed the drug companies, and all the other sources that maintain this barbaric and inhumane policy. IF people want this...then it can be their choice. BUT IF THEY DON'T WANT THIS they should have the right to choose. When people are fully capable of making a decision to make this choice, they should be allowed to do so.

Catholic Viewpoint: Ignore this one. The church will change their position as soon as they realize that they are losing more congregants. This is their pattern. Forget them. (Yes, I am a Catholic...non practicing.)

Politicians: Look at the latest Quinnipiac Poll.
