Dear Madams/Sirs:

I write to express my opposition to Bill 7015 which would make physician assisted suicide legal in our state. To call the legislation a compassionate aid in dying or providing people with the opportunity to die with dignity is absurd. Bottom line, it is killing oneself. It is an objective moral wrong. Society and the laws of a just society are meant to uphold the common good, to protect and promote life. The legislation does neither. If the Legislature wants to achieve that goal then it should promote access to palliative care.
