

I wholeheartedly support the Death with Dignity bill and I strongly believe that CT should join other States that have passed legislation to provide humane care for the terminally ill.

We are more humane with our pets- Where is the HUMANE society for Humans?

Roman Catholics and others with religious beliefs do not have to pursue this programme for themselves or their families. But I would ask-Who is playing God here? The medical establishment and families who insist on continued care such as feeding tubes and ventilators-or those allowing the terminally ill to go in their own time and with dignity? I must disclose that my husband has Medullary Thyroid Cancer a very rare and incurable disease. Support the separation of Church and State in CT- Do not allow a vocal/organized majority to dictate care for all. Shirley Nichols
