Subject: Sb7015

I am writing today in OPPOSITION to SB 7015” .

This bill conflicts with my beliefs in protecting life from its beginning to its natural end. I am very concerned over the opening of the door to allow such acts and the ability for others to manipulate laws or pressure others.

I stood by at the bedside as someone's life came to its natural end. That experience while filled with sadness and grief, was also filled with peace, compassion and dignity.

We must protect life and do things in our power to put the highest value on life. Our legal system should not be in the role of giving or taking life.
