Re Aid in Dying bill public hearing on March 18, 2015:

I strongly support the aid-in-dying bill coming before the legislature this week. The majority of Connecticut's citizens are also in favor of passing the bill. Please vote to give us the right of self determination when facing a terminal illness. End-of-life decisions should be the right of terminally ill individuals, and those who help honor their wishes and ease their suffering should not be criminalized.
