**Subject:** House bill 7015

Please support the bill concerning right to die legislation. As a catholic and member of St. Luke parish in Westport I think everyone should be given the choice that is right for them at the time and I'm embarrassed to have others forcing their beliefs on all citizens of our state. Please know that there are many "quiet Catholics" who feel this way and don't simply assume that census numbers of people who attend a Catholic Church equals detractors of this proposed legislation. Religion has its place and I respect personal belief as long as it does not supersede the rights of others. Please support individual choice!
