Subject: Opposition to Bill HB 7015

Attention Members of the Judiciary Committee:
Testimony from Marylyn Vogt from the town of Westport, Connecticut:

I am submitting testimony in OPPOSITION to Bill HB 7015.

God gives each us an allotted time on earth. We have NO right to curtail this time because of inconvenience or for financial gain.

Let's let God be God, as He is the Author of Life.

We must be patient and let God take lives from this earth.

Proponents of assisted suicide are having people cut in line to die, and this is not in God's plan.

What if this bill passes? We will all die one day and individually be judged when we will meet our Creator. Do you actually want to answer to the fact that you have voted a yes to an action which has taken away God's domain?

It's my understanding that the medical field has a way of alleviating degrees of pain and without going overboard to actually CAUSE or will death of a person. Let's go with

EACH INDIVIDUAL LIFE is so very precious in God's eyes. **INFANTICIDE AND EUTHANASIA ARE WRONG.** Who are we to say to select that ANY life should be eliminated?

Only God has the right in Life/Death decisions FROM

CONCEPTION UNTIL NATURAL DEATH.

Please vote **NO** on HB 7015.

And please vote **NO** on any bill **connected with a request for assisted suicide** and vote **NO** to any attempt to kill off a life within the womb

just because he or she may not be "perfect" in our eyes.

And please note on any other bills which have or will come up on genetic counseling that these, too, must be viewed with the same call to caution on the side of protecting life in the womb.

It is important NOT to eliminate life in the womb.

Advise by counseling or from a genetic counselor which advises other than life support, or sanctions the eliminating of an unborn child just because of seeing it is not "perfect", is wrongly advised.

The gift of life is to be guarded, and protected.

As to **Bill 7015**, please do not even attempt to revise this bill, as the entire assisted suicide notion needs to be in **NON EXISTENCE**;

it is not man or woman's rights in matters of life and death.

It all comes down to this- it is the breaking of the 5th Commandment-

THOU SHALT NOT KILL.
