Subject: Aid in Dying

I want to voice my support for HB 7015, An Act Concerning Compassionate Aid in Dying for Terminally Ill Patients

As a hospice RN for over 25 yrs. I am very familiar with end of life issues and strongly feel that despite our very best efforts there can be unnecessary pain and suffering and death more prolonged that anyone would wish. It need not be so.

We should all have the peace of mind to know that, when faced with a terminal illness, we will have a choice to die comfortably at the time and in the place of our choosing.
