**Subject:** Common sense. ..

Really ....please google "the death of common sense ". And dig deep within yourselves , and apply some in regard to this agenda to disarm America.

.Do any of you feel any embarrassment that a second grade school child can make the simplest of observations. That if you take the right for law abiding citizens to protect themselves ...that your placing a welcome mat for criminals to please rob ,assault, and or kill me . Im helpless and defenseless !

It's not rocket science to understand who the first responders are ! As much as you all may either believe, Or truly think you with your behind your desk studies ....proven to the contrary, Statistics don't lie... if you compare two cities , side by side one city you have bad people who have guns, and the residents have no means to protect themselves. ..here's the million dollar question. ..DO you think the criminals

Will think twice about committing a criminal act ? Please. ..Common sense !

Dont blow smoke up our pants leg....show some integrity , and pride .

Not angry. Just extremely disappointed.

Dare I say "God bless this once great nation " .

Respectfully ..

Daniel Whitman
