Members: Please oppose the above referenced proposed bills.

The only solution to a victim of domestic abuse is for that victim to leave the environment in which she is threatened. To do anything less is simply wishful thinking. A woman can be killed by a knife, an axe, a baseball bat, a golf club, a man's hands or even his feet if he is versed in martial arts. Let us demonstrate to the voters that we still have a small degree of "common sense".

Please oppose HB7028 also. If you want Connecticut to become Nazi Germany, then you will support HB7028. Let's use some "common sense".
