

Hello and please receive my best regards,

My name is Maria Arroyo and I am an undocumented resident of CT for over 8 years now. I have 3 kids, 2 of which are American. I also live in fear of going to work one day and never returning to my children because ICE detained me and decided to deport me. I have cried many times just thinking of that ever happening and my children, without knowing why I'm crying, tell me that "everything's going to be OK". But is it? We can't be sure until an immigration Reform is passed and a good way to start is by passing HB 7039. Please help us feel a little protected. Thank you.
