

Dear Honorable Representatives,

I am writing to ask that you support HB 7039 to ensure that some of our rights are respected. We have been long awaiting a comprehensive immigration reform so we can stop living in fear, like convicts or felons, in the shadows. I have been living here for over 8 years and although I live OK in that I have 2 jobs that allow me support my family, put a roof over their heads and clothes on their backs, I still feel lesser than those who have no jobs and milk the system for support just because I'm not a legal resident.

If I were deported, my family would suffer greatly, not only financially as I'm the sole provider, but also, emotionally because my children are very attached to me. We're a family with good Christian morals and want to continue being a part of this great nation. Please help us reach that goal.

Thank you much,

Herbert Gonzalez
