

Hi, my name is Miguel Heredia and I would like to ask you to support HB 7039 because it's one of the few laws designed to protect immigrants. We live in fear of deportation despite being good and responsible human beings. I work and so do my undocumented family members and friends and we don't get in trouble. I'm afraid of reporting any crimes against me to the police because of fear of being deported and it's not fair. Please help us.

Thank you and may God repay what you do for us.

Miguel Heredia
